INVESTOR PRESENTATION

Bloomberg for Digital Assets

Seed Round

FEBRUARY 2026

The Problem

collectiveshift

Digital assets are the fastest-growing segment in fintech — yet investors are flying blind.

580M+ Crypto Holders Globally

Growing 30%+ annually with no dominant independent research brand serving sophisticated investors.

No Trusted Research Standard

There is no Bloomberg-equivalent for digital assets — no independent, institutional-grade research layer.

Drowning in Noise & Hype

Sophisticated investors face a flood of conflicted, low-quality information with no structured framework to navigate it.

Existing Platforms Are Conflicted

Competitors sell ads, promote tokens, or offer signals — not structured intelligence. The market is wide open.

THE SOLUTION IS COLLECTIVE SHIFT

Proprietary IP & AI-Powered Research Platform

collectiveshift

Research + Community + Coaching + AI — four integrated pillars.

Research

Portfolio Toolkit & Token Assessment Frameworks

Community

Curated High-Trust Network

SHIFT OS

Shift AI

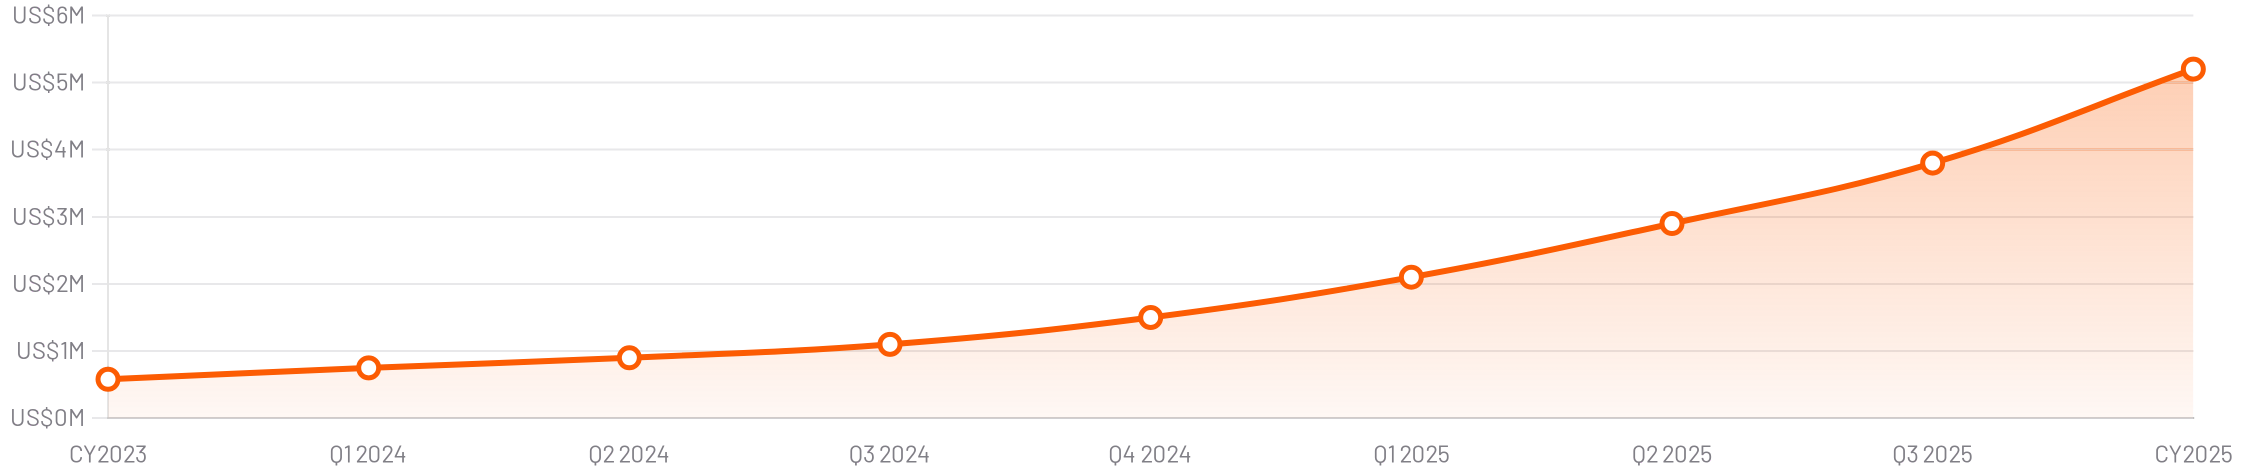
Revenue Growth

Consistent execution. Exponential results.

collectiveshift

Annual Recurring Revenue (ARR) — CY2023 to CY2025

+203% YoY Growth



CY2023 REVENUE

US$580K

Baseline Year

CY2024 REVENUE

US$1.5M

+164% Growth

CY2025 REVENUE

US$5.2M

+203% Growth

The Growth Machine: Acquisition

Controllable, efficient, and scalable growth.

collectiveshift

3.18x

ROAS

Return on Ad Spend
(8-Month Average)

METRIC (3-MONTH ROLLING)	VOLUME	ECONOMICS
Ad Spend (Meta)	US$362K	–
Leads Generated	6,635	US$55 / lead
New Customers	161	–
Revenue Generated	US$1.15M	3.18x ROAS

For every US$1 invested in marketing, we generate US$3.18 in revenue. This ratio has held for 8 consecutive months. **85% of customers come through paid channels**, making growth a function of spend, not luck.

Unit Economics & Path to Series A

Validating the model. Scaling the machine.

collectiveshift

ACCELERATED PATH TO SERIES A

US$2M SEED CAPITAL → 3.18× EXECUTION WINDOW → US$10M+ ARR TARGET (SERIES A READY)

PLATINUM UNIT ECONOMICS

Annual Price	~US$15,000	
CAC (Blended)	~US$4,200	
First-Year Payback	3.18×	(>1x = Good)
LTV:CAC Ratio	~10:1	(>3:1 = Excellent)

68%

CUMULATIVE RETENTION

Year 2 — 2023 Cohort

Strong retention validates product-market fit and supports the ~10:1 LTV:CAC ratio across the Platinum tier.

3.18X ROAS • ~10:1 LTV:CAC • 68% CUMULATIVE RETENTION • SERIES A READY

International Growth & US Expansion

collectiveshift

Taking a proven model to a 15× larger market — with superior unit economics.

This year marks the formal start of our US expansion. The playbook that generated profitable growth in Australia is now being deployed into the world's largest digital asset market.

Autonomous intelligence at scale

The Convergence Opportunity

No platform has captured the intersection of both mega-trends — until now.

Digital Assets × AI Research

Autonomous research & personalised education — at scale.

01 Structured Intelligence

Proprietary frameworks that transform raw market data into actionable, structured research — not noise.

02 Agent-Ready Frameworks

Our IP is purpose-built for AI agents — enabling autonomous research delivery that scales without headcount.

03 Shift AI — Live & Scaling Today

Our proprietary AI agent delivers personalised education and real-time research insights across the platform now.

The only platform sitting at the intersection of both mega-trends — and already generating US$5.2M ARR.

Use of Funds & Execution Plan

US$2M Seed to unlock the Series A.

collectiveshift

THE GAME PLAN

01 Scale Paid Acquisition

Increase Meta ad spend — 3.18x ROAS proven across 8 months. Growth is a function of spend.

02 Deploy US Team

Hire US-based sales and marketing to capture the 15x market opportunity at superior unit economics.

03 Launch Shift AI v2.0

Ship the next generation of our AI research agent — unlocking a new premium product tier and defensible IP.

04 Series A Preparation

Reach US$10M+ ARR with institutional-grade metrics to raise at a significantly higher valuation.

US$5.2M

The Bloomberg for Digital Assets — Roadmap

collectiveshift

Pre-Seed validated. Seed scaling. Series A in sight.

COMPLETED

PRE-SEED

US$630K

ARR

Product-market fit validated. Profitable unit economics proven.

NOW — SEED ROUND

SEED ROUND

US$5.2M

ARR

Scaling paid acquisition. US expansion. Shift AI v2.0 launch.

NEXT RAISE

SERIES A

US$10M+

ARR TARGET

US market dominant. AI platform at scale. Institutional metrics.

VISION

SCALE

US$65M+

ARR

Global digital asset research standard. Bloomberg for Digital Assets.

SEED CAPITAL ALLOCATION — US$2M

- **50%** Sales & Marketing
- **40%** People & Hires
- **10%** Shift AI v2.0

Exit Options

collectiveshift

Multiple strategic exit pathways — each highly attractive to a different acquirer class.

CONSERVATIVE

US$160M

~30× ARR Multiple

At US$10M+ ARR. Achievable within 18–24 months post-Seed.

BASE CASE

US$250M

~20× ARR Multiple

At US$20M+ ARR. Strong US traction + AI platform premium.

BULL CASE

US$500M+

Strategic Premium

Category-defining exit. Bloomberg for Digital Assets realised.
