12 **Brand Usage**
Do's & Don'ts

Who We Are

Our Mission

To be the world's most trusted digital asset education company, empowering our members to build generational wealth through a systematic, research-driven framework.

Our Vision

A world where every serious investor has the knowledge, tools, and community to confidently navigate digital assets.

Brand Promise

"We teach you how to think. Not what to think."

Brand Personality

- Premium & institutional-grade
- Trustworthy & transparent
- Education-first, research-driven
- Approachable yet authoritative
- No hype, no shortcuts

Positioning: What We Are vs. What We Are Not

What We Are

- ✓ Research platform
- ✓ Education company
- ✓ Independent & unbiased
- ✓ Skin in the game

What We Are Not

- ✗ Signals group
- ✗ Trading course
- ✗ Paid promotions
- ✗ Get-rich-quick scheme

Logo Variants

Our logo consists of the CS Arrow Icon and the Wordmark.

collectiveShift

PRIMARY — DARK BACKGROUND

collectiveShift

SECONDARY — LIGHT BACKGROUND

ICON MARK ONLY

collectiveShift

REVERSE — ON BRAND ORANGE

Clear Space

Ensuring the logo always has room to breathe.

The "C" Rule

To ensure the logo remains legible and impactful, always maintain a minimum clear space around it.

This clear space is defined by the height of the "C" in the wordmark (or the height of the icon mark itself when used alone). No other graphic elements, text, or page edges should enter this zone.

Heading Hierarchy

Plus Jakarta Sans Semi Bold (600) is our primary heading typeface. It conveys authority and modernity.

H1	Build Generational W...	72px / LH 120% / LS -0.72px
H2	Research-Driven Framework	52px / LH 120% / LS -0.52px
H3	Digital Asset Education	44px / LH 120% / LS -0.44px
H4	Systematic Investment Approach	36px / LH 130% / LS -0.36px
H5	Trusted by Thousands of Members	28px / LH 140% / LS -0.28px

Body, UI & Size Comparison

Barlow — Body Text

Regular 400 • 16px • Line Height 24px

"Collective Shift provides institutional-grade digital asset research and education."

Source Code Pro — UI Labels

Regular 400 • Labels, metadata

MARKET_ANALYSIS • PORTFOLIO_TRACKER

total_return: +247.3% • confidence: HIGH

Oswald — Presentation Headlines

Bold 700 • Decks and event slides only

Primary Colours

Our primary palette anchors the brand: bold orange for energy and action, deep dark for authority, and white for clarity.

Bright Orange
#FC5C03
Primary accent, CTAs, highlights

Dark Background
#1B1925
Primary background

White
#FFFFFF
Text on dark, light backgrounds

Deep Black
#02000D
Deepest background level

Orange Scale

#4B1B00	#642401	#C94902	**#FC5C03**	#FC8C4E	#FEDECC	#FEEEE5

USAGE GUIDE

Darkest shades for disabled states and deep accents. Primary **#FC5C03** for all interactive elements. Lighter tints for backgrounds and hover states.

Secondary Colours

Supporting colours for UI states, data visualisation, and functional feedback.

Blue / Purple

#2404FC	#654FFC	#D3CCFE	#E9E5FE

Buttons, interactive elements, links

Teal / Green

#08C394	#0BF4B9	#CEFCF1

Success states, positive indicators, gains

Red / Danger

#CC0800	#FF0A00	#FFCECC

Errors, warnings, losses, danger states

Neutrals

#4D4C55	#807F86	#B3B2B6	#D9D8DA	#F2F2F2	#F9F9F9

Text hierarchy, borders, subtle backgrounds

Colour in Context

How our colours work together across different UI contexts and applications.

Corner Radius System

A consistent radius scale creates visual harmony across all components.

4px — XSmall
Swatches, checkboxes

5px — Small
Inputs

8px — Medium
Badges, small cards

12px — Default
Standard cards

16px — Large
Sections

24–32px — XLarge
Feature cards

100px — Pill
Buttons, tags

Pill Button (100px)

Card Radius (12px)

Badge Radius (8px)

Tag (Pill)

Shadow System

Four elevation levels create depth hierarchy. Shadows use black with varying blur and offset values.

XSmall

Blur: 2px + 5.5px
Offset Y: 1px + 2.5px

Tooltips, subtle lifts

Small

Blur: 4px + 7px + 11px
Offset Y: 2px + 4px + 5px

Cards

Medium

Blur: 8px + 24px + 48px
Offset Y: 8px + 20px + 24px

Modals

Large

Blur: 14px + 25px + 64px
Offset Y: 6px + 20px + 32px

Overlays, popovers

Buttons

Pill shape (100px radius) for all buttons. Plus Jakarta Sans Semi Bold 16px.

VARIANT	DEFAULT	HOVER	DISABLED
Primary	Button	Button	Button
Secondary	Button	Button	Button
Tertiary	Button	Button	Button
Danger	Button	Button	Button

Cards & Inputs

Standardized styling for content containers and form elements.

Card Styling

Standard Card

Border Radius: 4px | Active Color: #FC5C03

Deck Guidelines

Rules for creating high-impact, consistent slide decks for webinars and events.

01

Oswald Headlines

Use Oswald Bold in all caps for main slide titles. Use the primary orange to highlight 1-2 key words.

Q3 MARKET UPDATE

02

Minimal Layouts

Never crowd a slide. Use a maximum of 3 key points per slide. If you have more, split it into multiple slides.

03

High Contrast

Presentations should default to dark backgrounds (#1B1925) for better screen readability and a premium feel.

Dark Theme Default

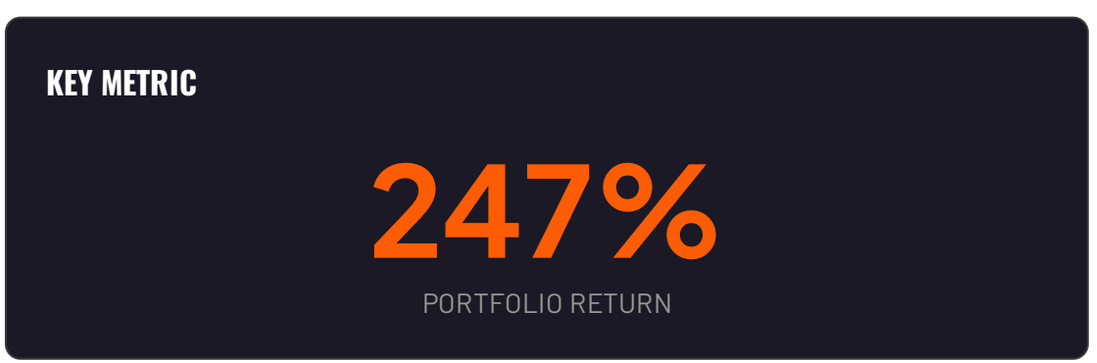
Standard Layouts

Use these core layouts to maintain consistency across all presentations.

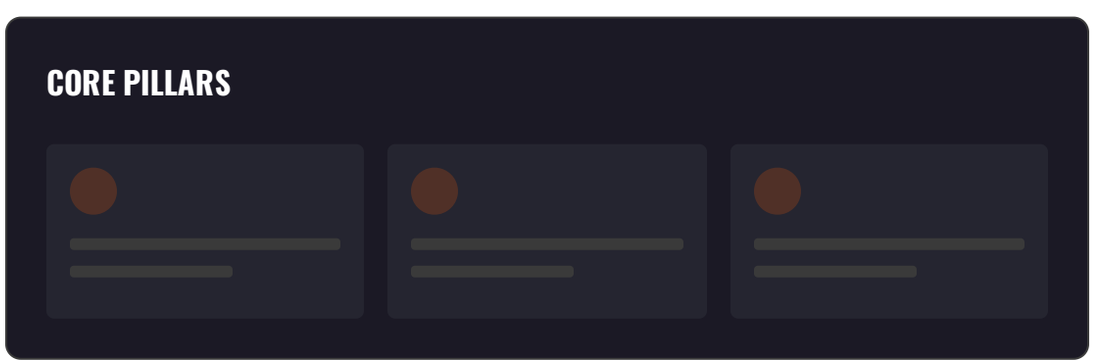
Title Slide

50/50 Split (Content + Image/Chart)

Stat Highlight



3-Column Feature



Phosphor Icons

Our icon system uses Phosphor Icons for a clean, consistent, and technical aesthetic.

We exclusively use the **Phosphor Icons** family. Their geometric structure and consistent stroke weight align perfectly with our typography and overall brand aesthetic.

Icons should be used purposefully to aid navigation, highlight key features, or break up dense text. They should never be used purely for decoration if they don't add semantic value.

Usage Rules

- **Weight:** Always use the "Regular" weight (1.5px stroke).
- **Size:** Base size is 24px. Scale in multiples of 4 or 8 (16px, 24px, 32px, 48px).
- **Color:** Match the icon color to the surrounding text color. Use Primary Orange (#FC5C03) for active states or emphasis.
- **Clearance:** Maintain padding equal to 25% of the icon's width around it.

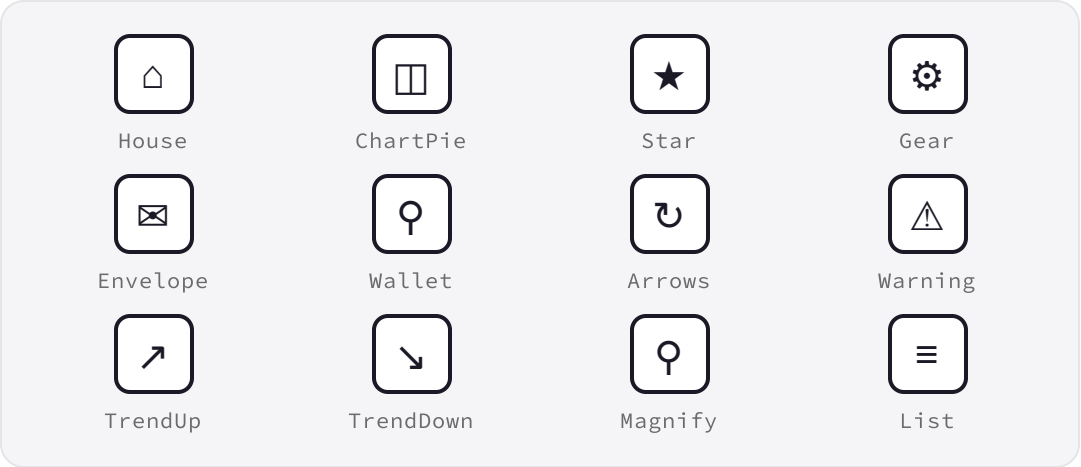


Image Guidelines

Photography should feel authentic, professional, and slightly desaturated.

Brand Photography

We use photography to show the real people behind the platform. Our style is candid, professional, and avoids typical "crypto bro" stereotypes. We prefer high-contrast, slightly moody lighting.

DO

- ✓ Use authentic, candid office or remote work shots.
- ✓ Ensure diverse representation.
- ✓ Use natural lighting where possible.
- ✓ Apply a subtle cool/blue tint to match our dark backgrounds.

DON'T

- ✗ Use stock photos of floating coins or glowing charts.
- ✗ Use overly posed or unnatural corporate stock imagery.
- ✗ Use heavily saturated or filtered photos.

Team Portraits

Team headshots must follow a strict, unified format to ensure a cohesive look across the platform and marketing materials.

DO

- ✓ Use a pure white (#FFFFFF) or pure dark (#1B1925) background.
- ✓ Crop from the chest up (medium close-up).
- ✓ Ensure the subject is looking directly at the camera.
- ✓ Convert to high-contrast black and white for standard use.

Portrait Standard

B&W / Chest-up / Solid BG

Tone & Voice

Our voice reflects our mission: to be the most trusted source in digital assets.

Authoritative, not Arrogant

We speak from a place of deep research and experience. We don't talk down to our audience, but we don't use weak, uncertain language either.

WE SAY

"Our analysis indicates a strong support level at $42k."

Clear & Direct

The crypto industry is full of jargon. Our job is to simplify it without dumbing it down. We use plain English to explain complex concepts.

WE DON'T SAY

"The decentralized paradigm shift will revolutionize the legacy fiat ecosystem."

Objective, not Hyped

We never use "moon boy" language. We don't promise returns, use excessive emojis, or create FOMO. We present the facts and the risks.

WE DON'T SAY

"BUY NOW! This altcoin is about to 100x! 🚀🚀🚀"

Empowering

Our goal is to teach people how to fish. We guide our members to make their own informed decisions rather than blindly following calls.

WE SAY

"Here is the framework we use to evaluate Layer 1 protocols."

General Usage

A quick reference guide for applying the Collective Shift brand correctly.

✓ Always Do

- ✓ Use the primary logo with the wordmark for external communications.
- ✓ Maintain clear space around the logo equal to the height of the "C".
- ✓ Use Plus Jakarta Sans for headings and Barlow for body copy.
- ✓ Use the Primary Orange (#FC5C03) sparingly as an accent color.
- ✓ Ensure sufficient contrast for all text against backgrounds.

✗ Never Do

- ✗ Stretch, distort, or alter the proportions of the logo.
- ✗ Use unauthorized colors for the logo or typography.
- ✗ Add drop shadows, gradients, or effects to the logo.
- ✗ Use the symbol alone without the wordmark in external marketing unless space is extremely limited.
- ✗ Use "moon boy" language or hype-driven financial promises.

collectiveShift
